3. Project

3.1 Project title

Tasmanian Fox Eradication Program (Stage 3) - Fox Incursion Response

3.2 Project ID

TAGEO114P2-00279

3.3 Project description

The Fox Eradication Program is a long-term joint Australian & Tasmanian Government commitment to complete the largest invasive animal eradication program ever attempted. It is designed to ensure that foxes do not establish in Tasmania & cause widespread biodiversity impacts, including potential extinctions. This project supports the capability to deliver a two-step incursion response framework; investigating reports & responding to the detection of foxes under an Incident Management System. The project also aims to strengthen the 'preventative' aspects of the program to prevent future incursions. As part of the wider Program, it is delivering encouraging results that the eradication can be achieved during the life of the project.

3.4 Project Outcomes

The project aligns to the Investment Themes by contributing to the prevention of the establishment of foxes in Tasmania; an event that will result in serious impacts on the State's internationally significant biodiversity values. The project supports the wider program that contributes to this outcome & the protection & conservation of NES species & ecosystems, including species in Ramsar sites and the Tasmanian Wilderness WHA. It also contributes to the development of knowledge and experience in invasive species eradication programs & awareness and to awareness of invasive species issues generally from the Tasmanian community & interstate & international visitors to the State. The project activities will utilise the experience gained in the eradication effort to date to continuously improve the incursion response protocols and capacity and deliver public information to achieve these objectives. It represents 'value for money' by investing in an internationally significant eradication that can be sustained in the longer-term. The Applicant has a strong capacity in this area to ensure the successful planning, management & delivery of the project with experienced staff in place and mature management processes & systems established to support the project.

3.5 Project Activities

The project will operate under an Incident Management System (IMS) outlined in the Applicant's 'Invasive Animals Incursion Response Strategy' and consistent with the national Biosecurity IMS. This application will partially support the 'Operations', 'Planning' & 'Public Information' functional areas of the IMS and will include:

- Operations comprising of field staff and tracking dog teams to investigate public reports and undertake incursion responses to confirmed 'fox presence', and
- A review of the Import Risk Analysis to ensure its currency & identify opportunities to increase preventative efforts at, and beyond, the State border.

The applicant will fund, or seek other funding, to support other activities that will contribute to the wider eradication effort as established under the IMS and Stage 3 Program Plan.

The Hon Greg Hunt MP

Minister for the Environment

Mr Kim Evans
Department Of Environment Parks Heritage And The Arts
PO Box 46
KINGS MEADOWS TAS 7249

06 NOV 2013

Dear Mr Evans

Thank you for your patience surrounding the progression of your application submitted to the *Caring for Our Country: Target Area Grants 2013-14*.

I am pleased to advise your application for grant funding has been successful. Funding up to a maximum of \$1,996,000 will be provided to the Department of Environment Parks Heritage and the Arts to implement the project entitled *Tasmanian Fox Eradication Program (Stage 3) - Fox Incursion Response*.

The projects funded by the Australian Government in this round have potential to deliver significant outcomes for ecosystem resilience and maintain healthy vegetation in targeted priority areas across Australia. An officer from the Department of the Environment will be in touch with you shortly to progress funding and contractual arrangements.

The Government is in the process of developing a number of new commitments which may be of interest to you. In particular, we will merge the Caring for Our Country and Landcare programmes to create a single National Landcare Programme based on three key principles: simple, local and long term. We will also be implementing the Green Army and 20 Million Trees initiatives from July 2014 to support environment projects across the country. Further information about the National Landcare Programme will be posted on the website www.nrm.gov.au as soon as it becomes available.

Congratulations on your application and I look forward to hearing about the outcomes of your proposal as your work is taken forward.

Yours sincerely

Greg Hunt
